Donation Value Guide

Placing a value on donated items is often difficult for the donor. To assist you, we have developed a donation guide to help you determine the fair market value of items you donate to Valley Thrift Shoppe.

Actual value depends on the age and condition of the item. Therefore, our guide gives a range of values, based on conditions from "good" to "brand new" to help you make the determination.

This guide is intended for use in valuing *general* merchandise only. Keep in mind that antiques, collectibles and items with designer labels may have a higher fair market value than stated here.
